80,000 men independent of the Turks, of whose service we still hope to hear a good account. The Ot-The steamship Canada arrived at Halifax on the toman troops which were last sent from Varna were veteran soldiers, and formed a part of the flower of Omer Pacha's army-and we have, therefore, a right to expect something from them; and with their numbers, if the allied commanders find themselves at the head of an effective force or 100,000 men, it is not The Austrian minister then carried the document to at all probable that they would delay the assault many Gortschakoff, who was in company ith Count Ar. hours, much less days, after the 18th. But the weather may have been such as to have rendered any military operations impossible, and the 25th may have been spent by the all es in their trenches, instead of within the walls of Sebastopol. Still we repeat, we do not apprehend any serious disaster from gross case every general would have his say, and all contingencies would be discussed and provided for in due cess if the allies possess the strength th y are said to have. And the public may rest assured that once lies, and even engaged, under certain eventualities, to that strength is in the field, and the weather will admit of their moving, something decisive will be un-

> Moscow Never Burned. Senator Douglass is said to have made the discovery, while traveling in Russia, that the city of Moscow was never burned! The following statement of the matter is from the Muscatine (lowa) Inquirer:

Coming up on the boat a few days ago, we happened to fall in company with Senator Douglas, who came on board at Quincy, on his way to Warsaw -In the course of a very interesting account of his trayels in Russia, much of which has been published by letter writers, he stated a fact which has never yet been published, but which startlingly contradicts the received historical relation of one of the most extraordinary events that ever fell to the lot of history to says that, notwithstanding the bad weather, the siege record. For this reason the Judge said he felt a delicontinued. Scarcely a night passed without some cacy in making the assertion that the city of Moscow

He said that, previous to his arrival at Moscow, he of the city, the guide declaring that it never occurred The works advance steadily. A reconnoisance and seemed to be nettled at Mr. Douglas' persistency in his opinion; but on examining the fire marks athat the guide was correct.

> ty of the architectural city - particularly of its "six hundred first class churches," stretching through ante-Napoleonic ages to pagan times, and showing the handiwork of different nations of history-demonstrates that the city was never burnt down (or up.) The Inquirer adds: The Kremlin is a space of several hundred acres.

in the heart of the city, in the shape of a flat iron, and On the 25th of December Gen. Canrobert writes is enclosed by a wall sixty feet high. Within this enclosure is the most magnificent palace in Europe, recently built, but constructed over an ancient paly than the enemy can. The army was full of con- ace, which remains, thus enclosed, whole and perfect with all its windows, etc. Near the Kremlin, surrounded by a wall, is a Chi-

nese town, appearing to be several hundred years old. still occupied by descendants of the original settlers. cessation for forty-eight hours, followed by a general The circumstances which gave rise to the error concerning the burning of Moscow, were these :- It is a city of 450,000 inhabitants, in circular form, occupying a large space, five miles across. There the On the 26th Mensch koff telegraphs that between winters are six months long, and the custom was and still is, to lay up supplies of provisions and wood to last six months of severe cold weather. To prevent these gigantic supplies from cumbering the heart of the city, and yet render them as convenient as prac-That both the English and French were preparing to ticable to every locality, a row of wood houses was constructed to circle completely round the city, and On the 26th considerable Russian reinforcements outside of these was a row of granaries, and in these were deposited the whole of the supplies. Napoleon had entered the city with his army, and was himself Admirals Dundas and Hamelin were at Constantioccupying the palace of the Kremlin, when, one night, nople, on their way home. Admirals Lyons and Bruet were in command of the fleets. General Cardigan by order of the Russian Governor, every wood house and every granary simultaneously burst into a blaze. All efforts to extinguish them were vain, and Napo-The Constantinople News says the siege works | eon found himself compelled to march his army thro' have advanced so far, that direct communications the fire. Retiring to an eminence, he saw the whole are prevented between the garrison of Sebastopol and city enveloped in vast sheets of flame, and clouds of smoke, and apparently all on fire And so far as he Although the works of attack are in a very forward was concerned it might as well have been, for though state, the correspondent of Le Presse believes that houses enough were left to supply every soldier with nothing-serious can be attempted before the 15th of a room, yet without provisions or fuel, and a Russian army to cut off supplies, he and his army could not The Turkish government was using great expedi- subsist there. During this fire some houses were on in providing supplies of ammunition, &c., for the probably burnt, but the city was not. In the Kremlin a magazine blew up, cracking the church of Ivan

more than a hundred feet up, but setting nothing on Mr. Douglas saw the fire marks around the city, where wood houses and granaries for winter supplies now stand as of old; but there appears no marks of conflagration within the city. On the contrary, it bears the unmistakable evidences of age.
